

Non-precancelled Use of S34 in La Crosse, WI

I have just received this S34 cover from J.L. Amiet to sell. While the perfin is not completely punched out it is very visible under light. The cover is

complete. The scan is cropped. Note that the catalog lists La Crosse, WI as an alternate location of use for this perfin - but it lists it as precancelled ("(PC)").

Note: This cover – and many others are available in the Club's Cover Sales Department run by Bill – see last page for address information.
